Why wos she oble to find both mines with such precision?
Looks like Miss Lin has sustained a serious blow this time!
Will Senly continue on this streak?!

PART 4: DOG HANDLING

So yummy!
Wu Hei Hei~
Ah, well, I just had to ask our principal,
Oho, if it isn't Little Winnow. You came at a good time.
Ah, Wu Hei Hei~
Eh heh heh~
If I could do an "Absolutely True" report
News Club Chief Half-Owl Little Winnow (♀)

Ehh~ As of right now
Who do you think will win?
Ah, of course~
I still see Senly winning
The newbie doesn t seem to qurte get the rules.
Well, that's how it is.
Is that so Time to wait and see.

They can't not be cheating.
How can they be so confident in putting down their flags?
Too bad!! I'm not using any cheats to figure out this board.
Hng hng~
You're definitely wondering if I'm cheating.

When mine-sweeping, you run into 50/50 choices often
By hesitating you're not gonna get anywhere by troubling yourself with the other squares, are you?
...
It's a useless state of affairs to me
In my opinion,
2
All one needs to know is the number

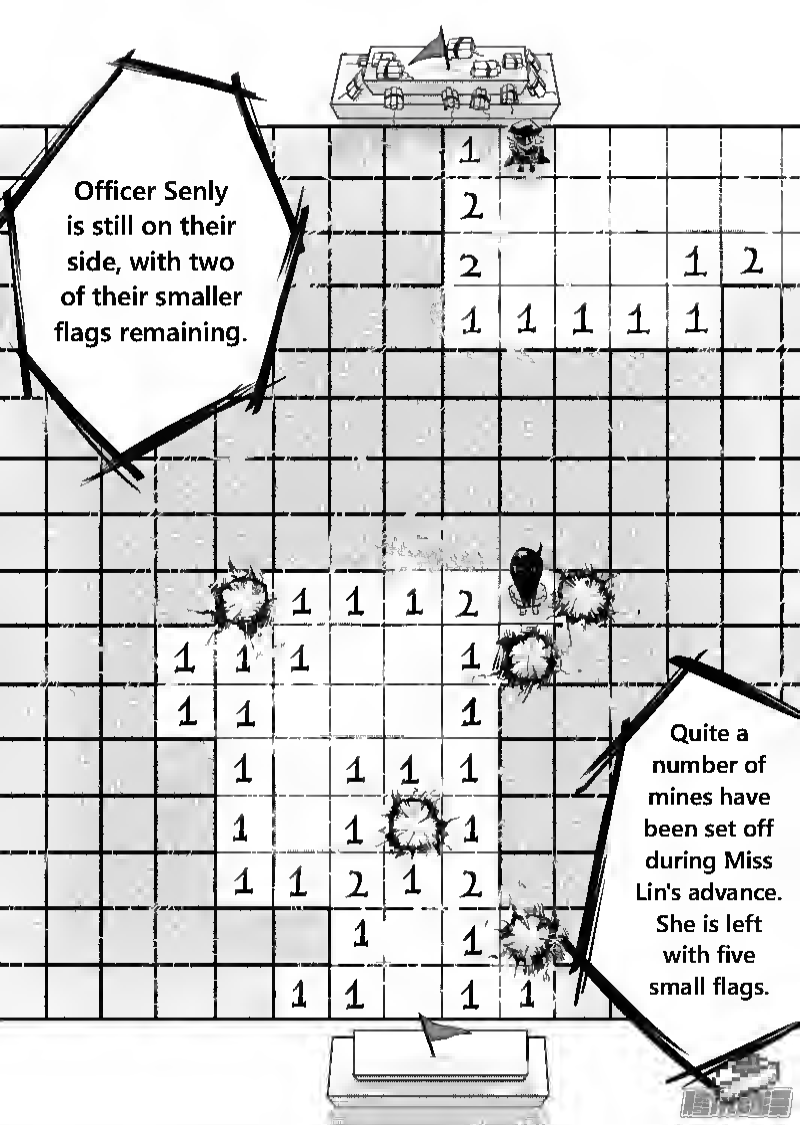
I CAN SENSE THEM ALL!
The mines in those nine neighboring squares,
Damn
Stepping on high valued squares means an attack.
I can't keep pushing forward like this
Wait... sense?
It's not that she sees them the announcer seemed to be hinting at it.
Why you...
...

The announcer said
"Dog" Senly!!
You've been using your dog nose to sniff them out!
Even with that, my supremacy has not changed
...been found out by you now
Yeah, they're a dog!
Smooth
Miss Lin!

I've already rigged my flag's platform with explosives!
But I'm afraid you're too late.
Forget about taking my flag!
So to speak,
咔哒
If you go near it, you'll be blown to bits!

Be a sensible girl and give up without a fight
I can consider lessening your punishment.
That so?
But now,
I've already found a winning strategy

What?
An astonishing declaration!! Amidst such a predicament...
I too am looking forward to what will happen next!
Let's go over the current state of the board.



Officer Senly is still on their side, with two of their smaller flags remaining.
Quite a number of mines have been set off during Miss Lin's advance. She is left with five small flags.

I should see about getting someplace safer.
Can't tell if she's bluffing
?!
Wait, what!?
How unskilled... Randomly throwing detonators about...
You're not getting me!!

What? Miss Lin is charging straight across!
She's neoring Officer Senly's position!
Such speed!! And there are actually no mines in the way!

キト上ヲ
Wha...

Miss Lin throws herself at Officer Senly!
But direct attacks are forbidden, so this won't be the key to victory!
Scoundrel what are you trying to do?
抱

Now,
Won't you take me to where there are no mines?
千钧一发，凛终于反击开始?!
NEXT TIME:
MORE GIRL-ON-GIRL ACTION?!
